## **Developments**

### Housing

Buckeye, Arizona has a large selection of available housing options:

**New Homes** – Many new single family home developments are currently being built in the Buckeye area with prices starting from as low as the \$110,000's, as well as new custom home lots starting from \$70,000 to \$800,000.

**Previously Owned Homes** – A huge range of pre-owned homes from as low as \$175,000 to over \$2,700,000 are available.

### **Historical Housing Statistics for Buckeye**

Data below shows the historical average selling price for previously owned single family homes, exclusive to 3 Bedrooms, 2 Baths.

Year Sold	<b>Square Foot</b>	Avg. Selling Price	Days On Market
2004	1,001-2,000	\$149,083	55
	2,001-3,000	\$248,622	163
2005	1,001-2,000	\$214,994	19
	2,001-3,000	\$332,388	27
2006	1,001-2,000	\$274,203	63
	2,001-3,000	\$355,587	75

#### How Many Communities are being planned in Buckeye?

Currently there are 22 Community Master Plans (CMP) ranging in size up to 36,000 acres with 340,882 housing units being planned. A Community Master Plan is a large community, with homes built by several builders, at a wide variety of price ranges. CMP's usually include schools, employment centers, community centers, pools, and recreational facilities as well as commercial districts with shopping and entertainment. The following page illustrates a list of the Town's approved Community Master Plans.

### **Review and Building Permit Process and Timeframe**

The Town of Buckeye's Community Development Department handles the building review and permitting process. The Community Development Department has four divisions, each handling a separate function of the permitting process. Those divisions are:

- Planning and Zoning Division
- Plan Review Division
- Permitting Division
- Building Safety Division

#### **Planning and Zoning Division**

**Function:** Assures the development proposals are consistent with the land use as identified in the Town of Buckeye's general plan.

The applicant submits an application (submitted plans) of the project. All applications, except annexations, begin with a multi-department Pre-Application Conference (also known as a PAC meeting). The project/applicant is assigned to a Town Planner. The Planner is the applicant's contact throughout the planning and zoning process.

Once the application has been received, the assigned Planner schedules the project for a PAC meeting. At the PAC meeting, the applicant provides an overview of the project to the PAC interdepartmental committee members. The departments ask questions concerning the submittal and provide feedback on the project.

The assigned Planner provides written comments from the PAC members to the applicant. The applicant receives the written comments in approximately ten (10) business days after the meeting. The applicant responds to the comments in a re-submittal (back and forth process to satisfy all Town departments). Once the re-submittal is approved, the assigned Planner generates a staff report. Depending on the type of project, the staff report is submitted for a public hearing at a Development Board meeting or the Town Council for review and action.

All site plans, variances, conditional use permits, and temporary sign permits go to the Development Board for public hearing and approval.

Preliminary plats, area plans, general plan amendments, community master plans, re-zonings, and development code amendments begin at the Development Board meeting with a public hearing and action for approval. If the item is approved at the Development Board meeting, it will then go for a public hearing and approval at a Town Council meeting, with the exception of a rezoning application. Rezoning applications will be reviewed at a Town Council meeting with no public hearing.

Final plat applications do not need to go to a Development Board meeting for approval. They go directly to the Town Council for approval with no public hearing.

All annexations begin with a public hearing at a Town Council meeting. If the annexation is approved at the Town Council meeting, the annexation will go to the Development Board for a approval with no public hearing. If approved, the annexation application will then go back to the Town Council for approval as a non-public hearing item.

The following page illustrates the standardized plan review timeframes for the planning division.

### Standardized Plan Review Timeframes: Planning Review

The following time frames are only for the **first** reviews:

**Preliminary Plats** 30 working days Final Plats 30 - 40 working days 120 working days Community Master Plans (CMP)\* 30 working days Re-Zoning\* Annexations\*\*\* 120 working days\*\*\* Plot Plan Reviews\* 15 working days Site Plan Reviews 45 working Days Miscellaneous Reviews\*\* 30 working days

The following time frames are only for the **second** and **third** reviews:

Preliminary Plats 30 working days
Final Plats 15 – 20 working days
Community Master Plans (CMP)\* 60 working days
Plot Plan Reviews  $\leq$  6 permits - 10 working days
Plot Plan Reviews  $\geq$  7 permits - 10 – 15 working days
Site Plan Reviews 30 working Days
Miscellaneous Reviews\* 30 working days

These times do not include Pre-Application Committee (PAC) meetings

**NOTE:** The working days do not include days for entering permit data, transportation days to and from the vendors/consultants and permit processing times. They are for actual plan review days only.

<sup>\*</sup> Additional Time may be required for more complex civil and building plan reviews. All review times reflect accurate and complete submittal information.

<sup>\*\*</sup> Miscellaneous reviews will include all pools, ramadas, patios, gas lines, power pedestals, fences and other specialty reviews.

<sup>\*\*\*</sup>Minimum time from submittal of application to adoption by ordinance (due to legal processes, postings, public hearings and appeals)

#### **Plans Review Division**

**Function:** Coordinates and conducts the review of all construction plans to ensure compliance with town codes, and federal and state laws and regulations.

Once the applicant seeks approval from the Town Council and/or Development Board, the applicant resubmits all sets of plans, approximately 2-4 copies per plan, to the Plans Review Division. All fees associated with the project must be paid at this time in order for the Permit Technician to accept the plans.

A Plans Coordinator works with the Plans Review Manager to further review the plans. A determination is made on whether the plans are reviewed internally or externally. Regardless of whether the plans are reviewed internally or externally, the timeframes still remain the same. All civil engineering plans are reviewed by the Town Engineer. The Town Engineer's function is performed by W.C. Scoutten, Inc.

After the first review process, the applicant receives (picks up) and reviews the plans – making the appropriate changes. All civil plan changes are coordinated directly through the Town Engineer's office. The applicant is responsible for making all appropriate changes to the project in a timely manner. After all the plans are reviewed and approved, the Plans Coordinator will contact the applicant and begin the process of generating a building permit for the project.

The following page illustrates the standardized plan review timeframes for the planning division.

### Standardized Plan Review Timeframes: Building Plans Review

The following time frames are only for the **first** reviews.

Minor Civil Plans Reviews	20 working days
Major Civil Plans Reviews *	30 - 40 working days
Landscaping Plan Reviews	10 working days
Building Plan Reviews**	10 working days
Fire Plan Reviews	10 working days
Plot Plan Reviews	15 - 20 working days
Miscellaneous Reviews***	10 working days

The following time frames are only for the **second** and **third** reviews.

Minor Civil Plans Reviews	10 working days
Major Civil Plans Reviews *	10-20 working days
Landscaping Plan Reviews	10 working days
Building Plan Reviews	10 working days
Plot Plan Reviews	15 - 20 working days
Miscellaneous Reviews*	5 working days

<sup>\*</sup> Bridges, Waste Water Treatment Plants (WWTP), Lift Stations, Water Campus, Booster Stations

\*\* Additional Time may be required for more complex civil and building plan reviews. All review times reflect accurate and complete submittal information.

<sup>\*\*\*</sup> Miscellaneous reviews will include all pools, ramadas, patios, gas lines, power pedestals, fences and other specialty reviews.

NOTE: The working days do not include days for entering permit data, transportation days to and from the vendors/consultants and permit processing times.

They are for actual plan review days only.

#### **Permitting Division**

**Function:** Processes all permits and applications.

The Town of Buckeye has approximately 92 different types of permits, depending on the scope of the project the applicant submits. A Permit Technician has 15-20 business days to process a permit for the project with engineering permits taking approximately 5-10 business days to process.

In order to issue a building permit for the project, the applicant must have a completed and signed Financial Assurance Agreement as well all plans reviewed and approved. Each set of plans must be stamped and signed by the Chief Building Official. Once completed, the Permit Technician contacts the applicant and the permit is ready to be picked up.

#### **Building Safety Division**

**Function:** Inspects construction and development projects to ensure a quality build and compliance with town codes and federal and state statutes.

The applicant contacts the Division and requests all required inspections at least 24 hours in advance. Inspections are required for the following:

- grading;
- electrical wiring;
- electrical service connection;
- roof sheeting and re-roof;
- footing;
- sheet rock;
- stem wall;
- HVAC;
- framing and structure;
- plumbing fixtures;
- gas line;
- mobile home set-up;
- water and sewer lines; and
- fencing.

If any inspection is made and the work is not approved, the applicant must make the necessary corrections prior to the commencement of any additional construction activity. Construction work may be stopped at any time for non-compliance to codes and/or approved plans. Prior to occupying any new structure or any unoccupied structure, a Certificate of Occupancy must be issued by the Building Official.

## **Air Quality**

The Town of Buckeye is in a non-attainment area, which is defined as a locality where air pollution levels persistently exceed National Ambient Air Quality Standards or that contributes to ambient air quality in a nearby area that fails to meet standards. Permitting is handled through Maricopa County Air Quality Department.

To obtain permit information please contact the Maricopa County Air Quality Department or visit their web site.

Maricopa County Air Quality Department 501 North 44<sup>th</sup> Street, Suite 200 Phoenix, AZ 85008 P: (602) 372-1071
